31/10/2023

For the attention of residents of Bolton Percy whose property is affected by flood water.

Dear Resident

You are invited to a Special Flood Meeting on the evening of 7th November, commencing at 19:00. This immediately precedes the monthly Parish Council Meeting which normally commences at 20:00. The evening is being facilitated by senior personnel within the Environment Agency.

Part 1:

A specialist Flood Risk Project Manager will start the evening to explain about the Property Level Resilience Scheme, the specialist intervention products available ie one way valved air bricks and flood gates as just a couple of examples; and she will explain eligibility for the grant scheme. This part of the meeting is likely to be of particular relevance to you.

Part 2:

A senior Management Advisor on Flood and Coastal Risk will be providing an update of the Tadcaster Flood Alleviation Scheme and hosting a Q and A session. This part of the evening is likely to be of interest to many residents in the parish.

Please contact your local Flood Warden and Councillor Mike Nicholls for further information if required, mikenicholls123@googlemail.com.

We look forward to welcoming you at the meeting.

Yours faithfully

Alison Dawson
